JEWS IN RUSSIA

With a list of Jews in the Soviet government of Russia

Introduction to Victor Marsden's brochure,

written in 1921 by an unknown editor

«The proposed article was written by Victor Marsden in December 1918. He was for many years a regular correspondent for the English newspaper "Morning Post" in Russia. After an armed coup staged by the Bolsheviks, Marsden was thrown into the Peter and Paul Fortress. It was on the very day, August 31, 1918, when Captain Kromi was killed in Petrograd.

In 1921, after returning from Russia, Victor Marsden improved his health as a correspondent for the Prince of Wales's retinue during the Prince's tour throughout the British Empire. However, immediately upon returning from this tour, Victor Marsden unexpectedly died in complete health. Below is a list of leading officials of the Soviet state. Even Mr. Lucien Wolf was not able to declare this list false.

The American Jewish banker Jacob Schiff, (who will be discussed in detail later), financed Japan for the war with Russia. Schiff then financed the "Russian" revolution of 1905 in Russia, and

ensured Trotsky’s comfortable life, just as Rothschild in London ensured the life of Karl Marx. And, after Trotsky was released from Canadian captivity on the orders of the Jewish-controlled English government, there is no longer any doubt that it was the Jews who crucified Russia, and it was they who were responsible for the world war, and for the hypocrisy of the League of Nations, and for the betrayal of the so-called "signing of the Peace of Versailles.".

Under no circumstances should we imagine that Russia is the only victim of the Jews. Russia simply repeated the fate of England and France that befell them in their own "Great Revolutions.".

Before the revolution, the Jews completely controlled the Tsarist government, just as they controlled the English government of Asquith and Lloyd George through Cassel, Spayer, Mond & Co. When Asquith's government fell, the Jews began to control Lloyd George through their brethren, placed literally in every department of England and in every place of any interest. At the same time, not only pure Jews work for Jews, but also half-Jews and hidden Jews, just as happened in Russia.

The Jewish danger is no longer a danger; it is already a fait accompli of the total Jewish dictatorship established over the whole world. Jews around the world have complete control over all wealth, money, minerals and information. The sooner the British understand this fact, the better it will be for themselves, since until recently no one had prevented the Jews from carrying out the program of control over the world set out in the Protocols of the Elders of Zion».

Jews in Russia

There are more Jews in Russia than in the whole world combined. Only officially there are about 10 million Jews in Russia, and only God knows how many there actually are. In all countries where conscription exists, Jews, with the help of rabbis, falsify their statistics. This is common practice. Jews change their birth dates, record boys as girls, record only one child instead of several, and so on. In addition to the practice of Jews kidnapping girls into brothels, which are kept only by Jews throughout the world, a phenomenon called "white slavery," wealthy Jews widely practice marrying non-Jews and recording their half-Jews under Christian surnames.

How this practice disfigures our society — this is a subject for separate research. For example, a Russian Grand Duke who was recently shot was the illegitimate grandson of a royal in Germany who was seduced by a Jewish banker. Jews willingly give their women in marriage to Christians. In Russia, Jews are just as willing to accept Orthodoxy, especially if it is beneficial to them. At the same time, they change their names, so if before there was Yakov Rubinstein, now he is Ivan Ivanovich Ivanov. This change does not in the least change the being of the Jew, who continues to frantically serve his world kahal. Russians call such Jews "crosses.". Therefore, based on my many years of observations in Russia, I believe that the number of Jews in Russia is at least twenty million people (this was a hundred years ago, but how many now?).

The only government position that was open to Jews under the tsarist government— is, oddly enough, in the secret police, in the gendarmerie. This fact, naturally, predetermined the fate of Russia and, in particular, Prime Minister Stolypin. The Jews were aware of everything that was

happening in the tsarist government, because they completely controlled the tsarist secret police and knew everything about everyone.

The Bolsheviks could, it was not without our help (England), easily take power back in July 1917, if not earlier. Now the Jews have seized power in Germany, and thus the whole world is at their feet. Christian peoples are thrown into poverty and slavery throughout the world. Christians — are Jewish slaves. Since the Jews — are the only race that not only protects themselves from conception, but also stimulates birth (look at their religious regulation of behavior on Saturdays), there is no doubt that the number of Jews will soon exceed the number of Christians. And then, as they believe, a Jew will be born, the Messiah, who will give the whole world to the "disgrace of the winner.".

We are already at the end of this long path of conquest that the Jews embarked on six thousand years ago. And two thousand years ago, the Jews, having destroyed republican Rome, had already seized world power into their own hands, introducing a regime of so-called emperors fully accountable to the Jews. Roman emperors were already appointed and deposed by the wealthy Jews of the city of Rome as they saw fit, as it was the Jews who controlled the Praetorians. Unlike Republican Rome, the Roman Empire was already the Jewish Roman Empire. If you look at the history of Imperial Rome, then it, like everything else, must be interpreted completely the opposite.

All emperors who refused to obey the Jews were slandered and called madmen, such as Nero or Caligula. They removed Nero, who was disobedient to the Jews, after they set fire to Rome and

rioted, then slandered him and came up with beautiful legends about his death. The Roman emperors, helpful to the Jews, were called smart and great, but Jesus Christ came, and the Jews were thrown back and lost their world domination, and their Jewish lair in Palestine was destroyed. But the Jews are not the ones who give up, they have started the fight for world domination again, and now the Jews are already in the final stages of creating a global state of Jews. There are no non-Jews in this scheme.

Without exception, all revolutions in Russia, and in particular those of 1905 and 1917, were the work of Jews. Even the uprising of Emelyan Pugachev was organized by Jews. Emelyan Pugachev came from Poland, and this says a lot. Previously, Polish Jewry had already organized a campaign against Moscow, and was very close to the goal. Poland at that time was the capital of world Jewry, like England, Soviet Russia or the USA now. It’s not for nothing that Pugachev came from Poland.

He came, accompanied by Jewish "commissars," armed and supplied with Polish Jewry, that is, it was not an uprising, but an invasion from Poland of a large detachment of foreign mercenaries. His march across Russian soil was accompanied by the same beatings of Christian priests, destruction of churches and massacres of the common people that are a hallmark of the actions of Jews in disguise, from Protestant Holland, Germany, revolutionary France or England, to the Bolshevik Revolution of 1917.

Similar events through which the Jews liquidated as a class the entire national layer of educated people in the main European countries were the following events: the so-called national

liberation struggle of Holland for liberation from Spanish rule, from where the Jews had previously been expelled by Queen Isabella, the Thirty Years' War in Germany in the 17th century, the Great Jewish Revolution in England in the 17th century, the Great Jewish Revolution in France in the 18th century, and finally this is the Great October Communist Jewish Revolution in Russia. At the same time, America had already been discovered and from the very beginning was built as a Jewish country and on Jewish principles as the state of the Yellow Devil, the Jewish god Mamona, the Jewish Moloch and the god Jehovah.

After 1917, Bolshevik Jews took out of Russia all the valuables that could be physically taken out at once: gold, jewelry that they removed from murdered people, and now they are engaged in the export of natural resources from Russia. These Jews exterminated an immeasurable number of millions of people in Russia in 1917–1921, mainly from the upper strata of society and as deep down as possible. The class theory of their Jew Karl Marx gave them the opportunity to officially outlaw and destroy the entire educated class of Russia, so now it is hardly possible to find a non-Jew there who could read and write.

Jews in Russia are now selling Russia's natural resources to the governments of the United States and England. Jews in Petrograd — are the only people who can walk upright. Russian Jews, despite the revolution and civil war, have food, clothes, shoes, they have everything they need. Others, except Jews, in Russia have nothing of this. Non-Jews in Russia are doomed to starvation. Some Jewish detachments take food and valuables from Russian citizens, while other Jewish detachments shoot them. Jews are now coming from all over the world to Bolshevik Russia: from England, from the USA, to help their Russian Jews rule Russia, and all of them in

Russia receive leadership positions, receive good housing, food, clothing, without any problems and at once.

Immediately after 1917, Jews generally banned any form of Christian religion in Russia. Under pain of death, weddings, funerals, and no rituals at all were to be performed in Russia using Christian symbols. Divorce, on the contrary — a matter of a few minutes. This is done for the convenience of Jewish bosses, to get rid of their non-Jewish concubines. Priests are a special object of Jewish hatred. If information about the total murder of the Russian people had not leaked abroad, the priests would have been finished off long ago. It is probably unnecessary to mention that rabbis and synagogues are thriving.

On the other hand, there is evidence to believe that for the first time since the destruction of Jerusalem, there is a split in Jewry between old and young shoots. Young Jews — are mostly atheists, and they kill Christians without disdaining any technical means at all. I'm not sure that old Jewry is completely with them, but the Polish suffering of Christians is evident, then old Jews look at this matter with secret approval. However, if the Russian people ever rise up and start killing Jews, then there is no doubt that the whole world will be filled with stories of the wild horrors to which "innocent" Jews are subjected, and all Christian governments will race to help the Jews and risk their Christian sons and send them to war in Russia to urgently save Jews from the hands of just retribution. (Note. Per.This uprising against Jewish slavery did not happen in Russia, but in Germany, whose fate and defamation are well known, and the Americans and British actually sent their children to snatch the Jews from the hands of the Germans, who had lost all patience).

The Jews were the commanders of the detachment that broke into the English embassy in Petrograd on August 31 and shot Captain Cromie. The Jews arrested everyone at the English embassy. All were commanded by three Jews, who had one revolver in each hand.

All political struggle in any state is waged only between Jews. Because they are smart? No — because they are numerous. Because they are everywhere, obvious, half-explicit and disguised, Russified and Americanized. All political parties are run by Jews, but this does not indicate divisions among Jews. This is a common trick, as a result of which one of them will come to power in any case. All trade unions are captured by Jews, and they are also bankers and capitalists. You will say that this is against theory, and that trade unions must fight capitalists. This is how the Jews explain it to you. But in practice, both Jewish bankers and Jewish trade union bosses rob Christian people from both ends.

The Jewish government of Russia rules Russia through the creation of armed groups, each of which has a special commissioner personally from Leon Trotsky, who is the real dictator of Russia. These armed groups are gangs of criminals who do not hesitate to kill their own fellow citizens. Leon Trotsky has direct access to Western bankers, and is therefore an inexhaustible source of money and weapons. In fact, there is only one person in Russia — Leon Trotsky has currency. Having currency and weapons, Leon Trotsky arms criminals and bandits, to whom he sets the goal of suppressing all resistance in Russia to his regime.

Russia is all poor and expropriated by Jewish commissars, people in it are dying of hunger by the millions, but Trotsky’s gangs are all armed with brand new European weapons, and there is no shortage of ammunition. Trotsky's Jewish emissaries abroad provide Trotsky with the supply of weapons on credit for the subsequent provision of concessions for the development of Russian natural resources. Trotsky himself distributes concessions. Whoever of the leaders of the gangs thus armed by Trotsky obeys Trotsky continues to receive money and weapons and is classified as a member of the regular Red Army. Whoever stops obeying Trotsky stops receiving money and weapons, so all of them, although they may play for a while, are ultimately doomed.

It is clear that, with an unlimited flow of money from overseas, Leon Trotsky, who previously had an American passport, must win this dishonest duel with the Russian people, because the whole world and the worst part of himself are actually fighting against the Russian people. Thus, Leon Trotsky kills two birds with one stone: on the one hand, he exterminates the Russian population, and on the other hand, he creates an army personally loyal to him. Trotsky's spies are everywhere and spy on every Christian. Any offense by Trotsky is punishable by death.

If the Jews have any problem, hostages are taken: wife, children, relatives and shot. For example, in order for this royal officer to fight against his people, his family is taken hostage. Money and valuables are also collected to pay off American bankers by shooting hostages. Suppression of resistance is also achieved by shooting hostages. Entire territories of Russia and parts of the population have been declared subject to complete destruction, for example, the south of Russia and Ukraine and the Cossacks are being "decossackized" in general. Everywhere in "Soviet" Jewish Russia, Jewish symbols in the form of stars appeared.

In 1905, millions of pounds were sent from London to Russia to help Jews carry out a coup, but the Russian government had to formally apologize for one government official who dared to say this out loud in Moscow. That's right, formally this person was not right, the money was collected not by England, but by world Jewry and sent to Russia in a roundabout way, but not directly through England. (It was a so-called case ”Agence Latine”. The person who provided this information to the Russian official, a Russian secret agent, is now, I think, in London).

World Jewry has its own government, not one, but many, which are intertwined and act in a coordinated manner, in such a way that they represent a gigantic world octopus. The central brain of this government is the Sanhedrin, the modern equivalent of the one that has always existed (now it is apparently called the Presidium of the World Jewish Congress).
